

Doctor Application

Doctor Application is user-friendly desktop application designed specifically to streamline clinic operations and simplify management for doctors and their staff. Built with the needs of doctors in mind, it offers an intuitive interface that can be easily mastered by clinic personnel.

Features:

It offers a range of features to streamline operations

- ✓ **Patient Management:**
 - Organize patient personal details, medical history, and treatment plans.
 - Schedule appointments.
 - Track patient vitals, medications, and allergies.

- ✓ **Appointment Scheduling:**
 - Manage patient appointments by assigning unique numbers within each morning/afternoon shift, ensuring clear organization and patient flow throughout the day.

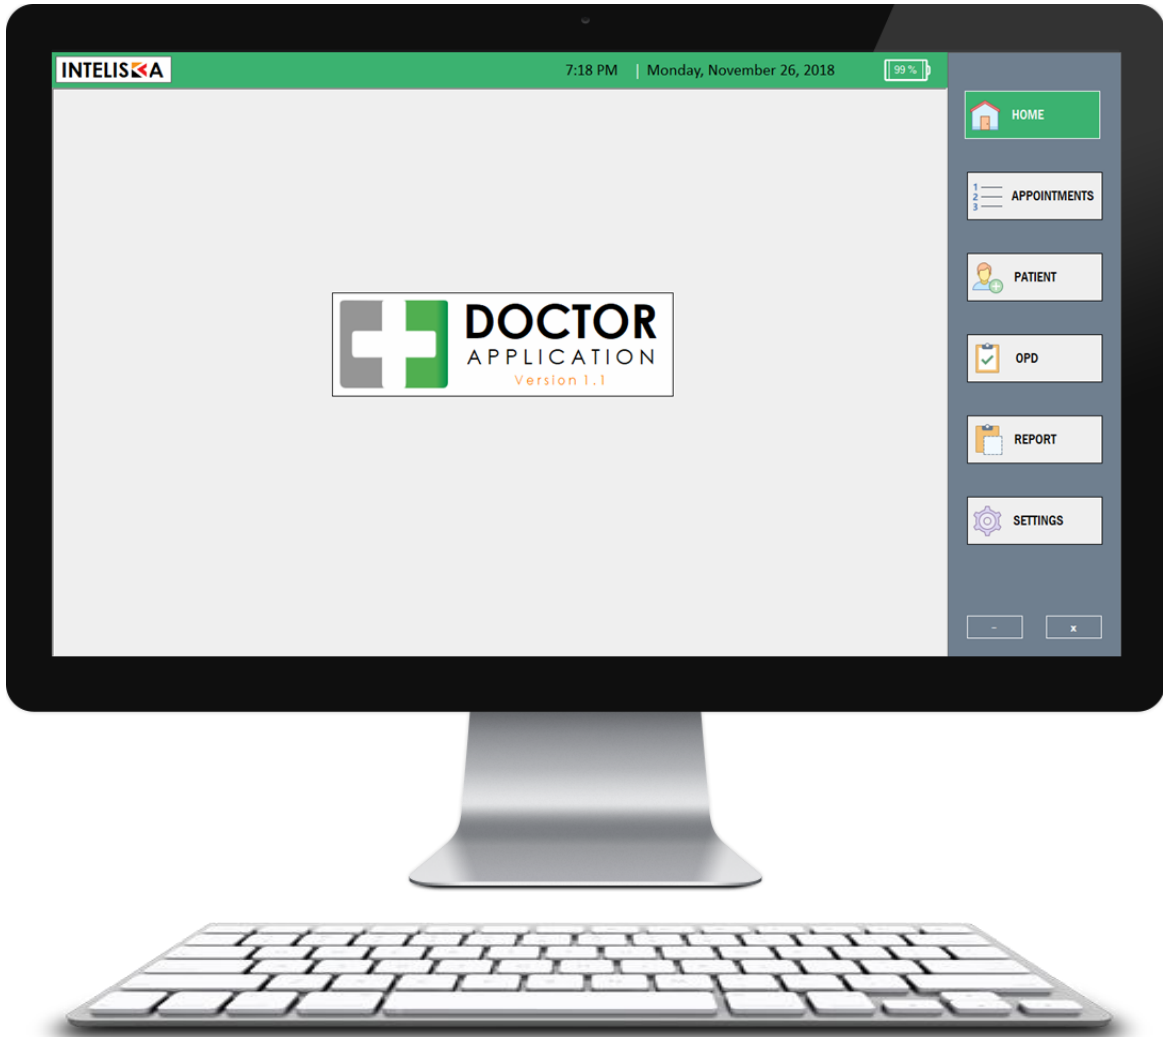

- ✓ **OPD & IPD Management:**
 - Manage outpatient visits with scheduling, vitals tracking, and prescriptions.
 - Streamline inpatient care with bed allocation, discharge planning, and detailed medical records.

- ✓ **Billing :**
 - Generate invoices and handle patient payments efficiently.
 - Track outstanding balances and manage patient accounts.

- ✓ **Medical Records Management:**
 - Securely store files for each patient.
 - Facilitate easy access to patient information for improved diagnosis and treatment planning.

- ✓ **Inventory Management:**
 - Track medical supplies and medications.
 - Set reorder points to avoid stockouts.
 - Generate reports to analyze inventory usage and optimize purchasing.

- ✓ **Reporting and Analytics:**
 - Generate customizable reports on patient visits, appointment trends, and financial performance.
 - Gain valuable insights into clinic operations to make data-driven decisions.
